

This website began as a repository of the genealogical history
of

Herbert Eugene Blaylock

and his wife

Nellie Elizabeth Privette

What began as a simple genogram expanded to include many genograms with some collateral lines.

Because Herbert's parents,
William Arthur Blaylock and Anna Maude Blaylock
both were born with the same surname,
there are two Blaylock lines.

Genealogy of William Arthur Blaylock

Genealogy of Anna Maude Blaylock

You will observe from the genealogy that
Arthur and Maude were not closely related
and didn't know they were related at all.

However, they do share common ancestry:
Daniel Whitaker and Rachel Lewis.

Daniel and Rachel are the parents of
Calvin Whitaker, who was William Arthur's
great grandfather.

Daniel and Rachel are also the parents of
Abigail Whitaker, who is Anna Maude's
grandmother.
